Tenor: 15 (fifteen) years 6 (six) months 23 (twenty-three) days from the Issue Date

Status of the Bonds: Direct, general, unconditional, unsubordinated and unsecured obligations of the Issuer

Interest Payment: The interest shall accrue from the Issue Date until (but excluding) the Maturity Date. The calculation of interest is based on the actual elapsed days, on a basis of one year comprising 365 (three hundred sixty-five) days. Any fragment of one Satang will be rounded downward. Interest payments shall be made semi-annually on 17 June and 17 December of each year. The first interest payment date is scheduled on 17 December 2024 and the final interest payment shall be made on the Maturity Date.

If any interest payment date falls on a day that is not a Business Day, such payment shall be made on the following Business Day (and no interest shall be calculated with respect to any such postponement except for the final interest payment), with the same force and effect as if made on the original payment date. In respect of the final interest payment date, interest shall accrue until the day before the actual date of payment.

Business Day Convention: Following Business Day Convention

Day Count Fraction: Actual / 365

Interest Accrual Basis: The accrued interest in THB is calculated by directly applying the Interest Rate to the principal amount of the Bonds. This amount is rounded to the second decimal in THB (any fragment of one Satang being rounded downwards).

Redemption: Unless previously repurchased and cancelled, the Bonds will be redeemed by the Issuer on the Maturity Date at their outstanding principal amount. If any such Maturity Date falls on a day that is not a Business Day, the payment of the principal amount will be made on the following Business Day.

The Bondholders are not required to surrender the Bond certificates (if issued) to the BOT, except where there is any specific necessity or doubt as to the ownership of the Bonds (for example, the Bonds have been used as a collateral), the BOT may request the Bondholders for their Bond certificates to be surrendered and the Bondholders must submit the completed Principal Redemption Forms, together with other relevant supporting documents, to the BOT.

Principal and Interest Payment Method: The interest and principal payments will be paid by the BOT to a bank account opened in Thailand (which is not a special saving account or fixed account) of each holder of the Bonds, whose name: (i) is notified to the BOT by the TSD (for Bonds deposited with the TSD in the scripless system); or (ii) appears in the register of the Bonds (the "**Register**") maintained by the BOT (for Bonds not deposited with the TSD) at the end of the business day preceding the first day of the Closing Period (as defined below), on each interest payment date and the Maturity Date, respectively, by way of wire transfer. If any payment date is not a Business Day, such payment shall be made on the following Business Day.

Closure of the register: The BOT will close the Register for a period of 10 (ten) days prior to each interest payment date, the Maturity Date or otherwise as specified in the BOT's Notification Re: Interest and Principal Payment (the "**Closing Period**"). The BOT would accept or register a transfer of or security interest over the Bonds during any Closing Period other than the Closing Period in respect of the final interest payment date and the Maturity Date unless it deems appropriate.

The Register will be closed as specified above for the purpose of determining a list of eligible holders of the Bonds entitled to relevant rights relating to the Bonds. Such list of eligible holders of the Bonds shall be determined at the end of the business day preceding the first day of each Closing Period.

The Issuer and/or BOT reserves the right to change the date and period for the closure of the Register without having to obtain prior consent from any holders of the Bonds.

Information on the Issuer:

This Preliminary Information Memorandum does not provide or disclose any information on or relating to the Issuer. However, prospective investors may get access to or examine relevant information on the Issuer which are made available to the public including, but not limited to, the information from the following websites: www.mof.go.th or www.pdmo.go.th. However, such information is not and shall not be incorporated into and/or form part of this Preliminary Information Memorandum.

RISK FACTORS

The prolonged impact of the COVID-19 pandemic and geopolitical tensions could have an adverse effect on Thai economy.

In December 2019, a novel form of respiratory disease first noticed in Wuhan, Hubei province ("COVID-19", caused by a novel coronavirus) was reported to the World Health Organization, with cases soon confirmed in multiple provinces in China. On 11 March 2020, the World Health Organization characterized COVID-19 as a pandemic. Since then, governments across the world adopted a variety of containment measures, including mandatory quarantines and travel restrictions, to control the initial outbreak, as well as subsequent waves of infections. Although COVID-19 ceased to be a global health emergency, as declared by the World Health Organization in May 2023, and the risks of reimposition of containment measures is now lower as most parts of the world are moving from a pandemic into an endemic state of COVID-19, the possibility of new emerging COVID-19 variants leading to a resurgence in infection rates may create economic and business uncertainties that could affect Thailand's economy. Accordingly, there can be no assurance that this epidemic will not intensify, or that other similar outbreaks, pandemic or epidemic will not occur.

As of the date of this Preliminary Information Memorandum, there are signs that the Thai economy is recovering together with the resumption of normal daily and business activities. In February 2024, the Office of the National Economic and Social Development Board reported that the Thai economy is projected to expand in the range of 2.2% - 3.2% in 2024, in part driven by expansion of exports of goods, the favorable growth of private consumption and the continual recovery of tourism sector. Nonetheless, there remains risks the global economies and the Thai economy could underperform the baseline projection due to supply disruptions in some industries which were hit by the Russia-Ukraine crisis and the Houthi rebel attacks on shipping lines, political tensions between China and Taiwan, emergence of new variants and possible mutations of COVID-19, re-imposition of restrictive measures and other policies implemented to curb the pandemic, its prolonged impact and/or any financial or economic disruptions.

The Bonds may trade at a discount to their initial offering price and/or with limited liquidity.

The holders of the Bonds may sell or purchase the Bonds over the counter through commercial banks and securities companies having a debt securities dealing license. However, there can be no assurance that an active trading market for the Bonds will develop and continue after this offering or the prices at which the Bonds will sell in the market after this offering will not be lower than the initial offering price.

If an active trading market for the Bonds does not develop or is not maintained, the Bonds could trade at prices that may be higher or lower than the price at which the Bonds have been issued. The price at which the Bonds trade depends on many factors, including the following:

- prevailing interest rates and the markets for similar securities;
- financial condition, historical financial performance and future prospects;
- political and economic developments in and affecting Thailand and other countries which are trading partners of Thailand;
- general economic conditions locally, regionally and globally;
- changes in the credit ratings of the Issuer; and
- the financial condition and stability of the Asian or global financial sector.

The Issuer does not intend to apply for listing of the Bonds on any securities exchange. Lack of a liquid, active trading market for the Bonds may adversely affect the price of the Bonds or may otherwise impede a holder's ability to trade or dispose of the Bonds.

Foreign exchange rate risks and exchange controls may result in investors receiving less interest or principal than expected.

The Issuer will pay principal or interest on the Bonds in Baht (as defined above). This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the "**Investor's Currency**") other than Baht. These include the risk that exchange rates may significantly change (including changes due to devaluation of Baht or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to Baht would decrease (a) the Investor's Currency equivalent yield on the Bonds, (b) the Investor's Currency equivalent value of the principal payable on the Bonds and (c) the Investor's Currency equivalent market value of the Bonds. Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rates. As a result, investors may receive less interest or principal than expected, or no interest or principal.

The Bonds may not be a suitable investment for all investors seeking exposure to assets with sustainability characteristics.

Although the Bonds will bear characteristics of a sustainability-linked bonds, they may not satisfy an investor's requirements or any future legal, quasi-legal or other standards for investment in assets with sustainability characteristics. Any adjustment to the Interest Rate as contemplated in the General Terms and Condition of the Bonds will depend on the Issuer achieving, or not achieving, any or both of the Sustainability Performance Targets (please see "*Summary of Key Terms and Conditions of the Bond*"), which may be inconsistent with or insufficient to satisfy investor requirements or expectations. Prospective investors in the Bonds should have regard to the information set out in this Preliminary Information Memorandum and must determine for themselves the relevance of such information for the purpose of any investment in the Bonds, together with any other investigations such investor deems necessary.

In addition, the Step-Up Event and Step-Down Event in respect of the Bonds are premised on definitions of Sustainability Performance Targets which themselves may not be aligned with investor requirements or expectations. The Issuer's Sustainability Performance Targets aim to achieve a Total Greenhouse Gas Emission amount of, not exceeding, 388,500 (three hundred eighty-eight thousand five hundred) ktCO₂e, and a number of newly registered Zero Emission Vehicle (ZEV) Passenger Cars and Pick-Up Trucks amount of not less than 440,000 (four-hundred and forty thousand) cars, as at the Target Observation Date, under Sustainability Performance Target 1 and Sustainability Performance Target 2, respectively. These Sustainability Performance Targets are uniquely tailored to the Issuer, and therefore would not easily allow for benchmarking or comparisons against similar sustainability performance targets or other issuers. No assurance is or can be given to investors by the Issuer and the Joint Lead Managers that the Bonds will meet any or all investor expectations regarding the Bonds or the Issuer's Sustainability Performance Targets.

Although the Interest Rate will be adjusted if the Sustainability Performance Target(s) are not met, the failure to meet the targets will not be an event of default nor will the Issuer be required to repurchase or redeem any Bonds in such circumstances by reason only of the failure to meet the Issuer's Sustainability Performance Target.

The Bonds are not being marketed as “green bonds”, “social bonds” or “sustainability bonds” as the net proceeds of the issue of the Bonds will be used to offset the budget deficit

The Bonds are not being marketed as “green bonds”, “social bonds” or “sustainability bonds” as the net proceeds of the issue of the Bonds will be used to offset the budget deficit. The Issuer has not committed to (i) allocating the net proceeds specifically to projects or business activities meeting sustainability criteria or (ii) being subject to any other limitations or requirements that may be associated with green bonds, social bonds or sustainability bonds in any particular market.

There is currently no market consensus on what precise attributes are required for a particular project, activity or performance target to be defined as “green”, “social” or “sustainable”, and therefore no assurance is or can be given to investors by the Issuer and the Joint Lead Managers that the Bonds will meet any or all investor expectations regarding the Bonds or our sustainability performance target qualifying as “green”, “social”, “sustainable” or “sustainability-linked”, or that any adverse environmental, social and/or other impacts will not occur in connection with the Issuer striving to achieve the Sustainability Performance Targets or the use of the net proceeds from the offering of the Bonds.

No assurance or representation is given by the Issuer or the Joint Lead Managers as to the suitability or reliability for any purpose whatsoever of any opinion, report, certification or validation of any third party in connection with the offering of the Bonds or the Sustainability Performance Targets to fulfil any green, social, sustainability, sustainability-linked and/or other criteria. Any such opinion, report or certification is not, nor shall it be deemed to be, incorporated in and/or form part of this Preliminary Information Memorandum.

The second party provider and providers of similar opinions, certifications and validations in connection with the offering of the Bonds or the Sustainability Performance Targets are not currently subject to any specific regulatory or other regime or oversight. Any such opinion or certification is not, nor should it be deemed to be, a recommendation by the Issuer, the Joint Lead Managers or any other person to buy, sell or hold Bonds. No representation or assurance is given by the Issuer or the Joint Lead Managers as to content of, the suitability of or reliability for any purpose of any such opinions, reports, certifications and validations made available in connection with the offering of the Bonds or the Issuer’s Sustainability Performance Targets and none of the Issuer and the Joint Lead Managers accepts any responsibility in this regard. Bondholders have no recourse against the Issuer, any of the Joint Lead Managers or the provider of any such opinion or certification for the contents of any such opinion or certification, which is only current as at the date it was initially issued. Prospective investors must determine for themselves the relevance of any such opinion, certification or validation and/or the information contained therein, and/or the provider of such opinion, certification or validation, for the purpose of any investment in the Bonds. Any such opinion or certification will not be, or deemed to be, incorporated into, and will not form part of, this Preliminary Information Memorandum. Any withdrawal of any such opinion or certification or any such opinion, certification attesting that the Issuer is not complying in whole or in part with any matters for which such opinion, certification or validation is opining or certifying on may have a material adverse effect on the value of the Bonds and/or result in adverse consequences for certain investors with portfolio mandates to invest in securities to be used for a particular purpose.

Although the Issuer intends to meet the Sustainability Performance Targets, there can be no assurance of the extent to which it will be successful in doing so, that it may decide not to continue with the Sustainability Performance Targets or that any future investments it makes in furtherance of the Sustainability Performance Targets will meet investor expectations or any binding or non-binding legal standards regarding sustainability performance, whether by any present or future applicable law or regulations or by its own governing rules or investment portfolio mandates, in particular with regard to any direct or indirect environmental, sustainability or social impact. The Issuer's efforts in achieving the Sustainability Performance Targets may further become controversial or be criticized by activist groups or other stakeholders.

Achieving the Sustainability Performance Targets will require the Issuer to expend significant resources, while not meeting any such targets would result in increased interest payments and could expose the Issuer to reputational risks.

As described in the section entitled "Kingdom of Thailand's Sustainability-Linked Financing Framework" of this Preliminary Information Memorandum, achieving the Sustainability Performance Targets will require the Issuer to expend significant resources.

Conversely, if the Issuer does not meet the Sustainability Performance Targets, this would not only result in the obligation to pay additional interest on the Bonds, but could also harm the Issuer's reputation, the consequences of which could, in each case, have a material adverse effect on the value of the Bonds. No assurance or representation is given by the Issuer or the Joint Lead Managers of the extent to which the Issuer will be successful in satisfying its Sustainability Performance Targets or any similar sustainability performance targets, including, any assessment of the suitability and eligibility of the Key Performance Indicators and the Sustainability Performance Targets, including the methodology and calculation for the monitoring and evaluation of the progress towards or achievement of any Sustainability Performance Target.

Our ability and autonomy to calculate the Key Performance Indicators.

The Issuer calculates its Key Performance Indicators in a manner as described in the section entitled "Kingdom of Thailand's Sustainability-Linked Financing Framework" of this Preliminary Information Memorandum.

Although the Issuer's Key Performance Indicators and Sustainability Performance Targets are subject to review or assurance by a qualified independent third party against current market standards, these evaluations are made internally by the Issuer based on broadly accepted standards, and thereafter reported externally. Investors should be aware that the standards and guidelines on which such indicators and targets are based on may change over time and there can be no assurance that the way in which the Issuer calculates and reports its key performance indicators and sustainability performance targets will not change over time.

The BOT also sends information to the holders of the government bonds and issues certification of withholding tax to such holders.

Securities balances are recorded and kept in a scripless depository system provided by TSD. More detailed information on TSD and the securities depository system is available at www.set.or.th/tsd/en/tsd.html.

Although TSD and the BOT have established procedures to facilitate transfers of beneficial interests in the Bonds, they may cease to perform or discontinue to perform such procedures at any time, as a result of any change in applicable laws and regulations governing each of them. None of the Issuer or any of its agents will have any responsibility for the performance by TSD and the BOT or their respective direct or indirect participants of their respective obligations under the laws, rules and procedures governing their operations.

THAI TAXATION

This summary contains a general description of the principal Thai tax consequences of the investment in the Bonds by an investor in accordance with the provisions of Thai tax laws and does not comprise advice on taxation. Accordingly, prospective investors should consult their own tax advisors regarding the consequences of an investment in the Bonds and the interpretation and application of relevant Thai tax laws. This summary is based upon the tax laws of Thailand in effect on the date of this Preliminary Information Memorandum and is therefore subject to any subsequent changes in the future. In this regard, the interpretation or application of such relevant Thai tax law provisions shall be in accordance with the final judgement or decision of such court.

This summary does not purport to be a comprehensive description of all of the tax considerations that may be relevant to a decision to invest in the Bonds.
